Foreword	9	Introduction	10
Hanif Kara			

Structure and Form 12

Structural Physics 15 **Structural Elements** 35 **Structural Logic** 57

Materials Science	16	Bearing Elements	36	Compressive Structures	58
Forces:	16	Bearing Walls:	36	Two-Dimensional Shapes:	58
Stress		Stacked Masonry		Post and Beam	
Strain		Composite Construction		A-Frame	
Properties of Materials:	18	Columns	40	Portal Frame	
Strength		Foundations:	42	Arch	
Stiffness and Flexibility		Strip		Vault	
Reactions:	20	Pad		Dome	
Bending		Raft		Three-Dimensional Surfaces:	62
Shear		Pile		Diamatic Dome	
		Retaining Walls		Lamella Dome	

Structural Integrity	22	Unidirectional Spanning	44	Shell and Monocoque	66
Loads:	22	Elements			
Live and Dead Loads		Beam:	44		
Lateral Loads		Cross-Sections		Tensile Surfaces	68
Bracing		Linear Profiles		Membrane	68
Torsion				Cable Net	68
Stability:	24	Profiled Plate:	48	Tensegrity	68
Anchorage		Reinforced-Concrete Slab			
Height		Profiled-Sheet			
Centre of Gravity		Composite			
Cantilever Principle		Wafer/Laminate			

Materials Technology	26	Multidirectional Spanning	50		
Stone	26	Elements:			
Timber	27	Reinforced-Concrete Slab			
Steel	28	Coffer			
Reinforced Concrete	29	Space Frame			
Glass	30	Wafer/Laminate			
Fabrics	31				
Fibre-Reinforced Plastic	32	Connections and Joints:	52		
Sheet Materials	33	Dry Joint			
		Stone			
		Nail			
		Screw			
		Bolt			
		Rivet			
		Turnbuckle			
		Adhesives (Glue)			
		Welding			
		Brazing			

Climate and Shelter	70		
Human Comfort	73	Building Performance	79
Thermal Comfort	74	Climatic Envelope	80
Solar Geometry	76	Thermal Mass	80
		Thermal Insulation:	82
		Principles	
		Types	
		Air Movement:	86
		Natural Ventilation	
		Passive Control	
		Windows and Glazing	90
		Weathering:	92
		Masonry	
		Cladding Systems	
		Membranes	
		Bonded Surfaces	
		Insulation	
		Sound and Light	102
		Acoustics:	102
		Properties of Sound	
		Acoustic Control	
		Daylight	106
		Building Services	108
		Heating	108
		Mechanical Ventilation	110
		Air-Conditioning:	112
		Principles	
		Systems	
		Integrated Systems	116
		Sanitation	118

Computational Tools and Techniques	121	Case Studies	133	Building Codes	189
Building Information Modelling	122	Mud House	134	Rules Governing Construction	190
Responsive Systems	124	Tepee	136	Technology	
Structural Analysis	126	Igloo	138	European Guidelines on	192
Form Finding		Obelisk	140	Sustainable Construction	
Finite Element Analysis		The Pantheon	142		
Environmental Analysis	128	The Ironbridge	144		
Thermal		The Bell Rock Lighthouse	146		
Daylight		The Crystal Palace	148		
Air Movement		Clifton Suspension Bridge	150		
Acoustic		Tropical House	152		
		(Pavilion Demontable)			
		Kresge Auditorium	154		
		Palazzetto Dello Sport	156		
		The Houston Astrodome	158		
		The German Pavilion	160		
		The USA Pavilion	162		
		Self-Build House	164		
		Sydney Opera House	166		
		HSBC Headquarters	168		
		The Pavilion of the Future	170		
		The Portugal Pavilion	172		
		The Lord's Media Centre	174		
		30 St Mary Axe	176		
		'D' Tower	178		
		Davies Alpine House	180		
		International Space Station	182		
		Media ITC Space Station	184		
		Stedelijk Museum Extension	186		
Glossary	194	Index	199	Acknowledgements	208
Further Reading and Resources	196	Picture Credits	207
