HOW TO GET THE ZOOM PARTY STARTED?

BINGO!

Host your own Bingo party in the comfort of your own home!
Forget all about Bingo halls, overcrowding around small tables and neon lighting.
Now you can enjoy the all-time classic game in the comfort of your own home
with more themes than just numbers.

WHAT YOU WILL NEED

For the perfect Bingo party, you will need to get all members of your household together and invite friends or relatives who are far to join you with the help of technology. Turn the cameras and the music on, open a bottle of wine, make your favourite cup of tea or hot chocolate for any small people that are with you and let the games begin!

Laurence King have produced a variety of Bingo themes to choose from, all inspired by our favourite animal friends and beautifully depicted by our talented illustrators; there's birds and bugs, cats and dogs, monkeys and sea creatures, dinosaurs, monsters and more!

For those of you who don't have an LKP Bingo, we're offering two free downloadable bingo cards from every product so you can join the fun remotely, as long as one member of your party has a full set and can be the caller. During these challenging times, this is the perfect way to keep connected and have fun with all your loved ones, no matter how far from each other you might be.

HOW TO PLAY

In case you're not familiar with the rules, here are some simple instructions.

You can play Bingo with up to eight people, one of whom becomes the caller and is in control of the tokens. Every player chooses a bingo card and a handful of counters. The caller takes an animal token and calls its name out. Whoever has that animal on their card should cover it with a counter while the caller places the token on the game board. The winner is the person who covers all the animals on their board first and shouts "Bingo!"
