

Contents			
Introduction		8	
Structure and Form		10	
Structural Physics		13	
Materials Science		14	
Forces:		14	
Stress			
Strain			
Properties of Materials:		16	
Strength			
Stiffness and Flexibility			
Reactions:		18	
Bending			
Shear			
Structural Integrity		20	
Loads:		20	
Live and Dead Loads			
Lateral Loads			
Bracing			
Torsion			
Stability:		22	
Anchorage			
Height			
Centre of Gravity			
Cantilever Principle			
Materials Technology		24	
Stone		24	
Wood		25	
Steel		26	
Reinforced Concrete		27	
Glass		28	
Fabrics		29	
Fibre-Reinforced Plastic		30	
Sheet Materials		31	
Structural Elements		33	
Bearing Elements		34	
Bearing Walls:		34	
Stacked Masonry			
Composite Construction		36	
Columns		38	
Foundations:		40	
Strip			
Pad			
Raft			
Pile			
Retaining Walls			
Linear Spanning Elements		42	
Beam:		42	
Cross-Sections			
Linear Profiles		44	
Profiled Plate:		46	
Reinforced-Concrete Slab			
Profiled-Sheet			
Composite			
Wafer/Laminate			
Multidirectional Spanning Elements:		48	
Reinforced-Concrete Slab			
Coffer			
Space Frame			
Wafer/Laminate			
Connections and Joints:		50	
Dry Joint			
Stone			
Nail			
Screw			
Bolt			
Rivet		52	
Turnbuckle			
Adhesives (Glue)			
Welding			
Brazing			
Structural Logic		54	
Two-Dimensional Shapes		56	
Compressive Structures:		56	
Post and Beam			
A-Frame			
Portal Frame			
Arch			
Vault		58	
Simple Dome			
Two-Dimensional Shapes		60	
Tensile Structures:		60	
Cable Stayed			
Cable Hung			
Synclastic Surfaces		62	
Compressive Structures:		62	
Diamatic Dome			
Lamella Dome			
Geodesic Dome		64	
Anticlastic Surfaces		66	
Compressive Structures:		66	
Thin Shell			
Tensile Structures:		66	
Membrane			
Cable Net			
Tensile Surfaces		68	
Tensegrity Structures		68	

Climate and Shelter	70		
Human Comfort	73	Building Performance	79
Thermal Comfort	74	Climatic Envelope	80
Solar Geometry	76	Thermal Mass	80
		Thermal Insulation	82
		Air Movement:	84
		Natural Ventilation	
		Passive Control	86
		Climate Zones	88
		Weathering:	90
		Windows and Glazing	
		Masonry	92
		Cladding Systems	94
		Membranes	96
		Bonded Surfaces	98
		Construction Details I	100
		Construction Details II	102
		Sound and Light	104
		Acoustics:	104
		Properties of Sound	
		Acoustic Control	106
		Daylight	108
		Building Services	110
		Heating	110
		Mechanical Ventilation	112
		Air-Conditioning:	114
		Principles
