

CONTENTS

INTRODUCTION	8
1 WHAT IS PRODUCT DESIGN RESEARCH?	
What is research?	11
What is product design research?	11
Primary and secondary research	12
The iterative design research process	14
Summary of research methods	16
Product design process and methods	18
Analyzing research	19
Ethics	19
2 LOOKING	
Ethnography	21
Photo and video diaries	24
Shadowing	26
A day in the life	27
Personal belongings	29
Future forecasting	30
Trend spotting	31
Scenarios	32
Product autopsy	33
Sketching	34
— Case Study IDEO Havaianas Tote	38
— Case Study Sense Worldwide	40
— Tutorial How to conduct an ethnographic study	42
— Tutorial How to conduct a day-in-the-life study	44

3 LEARNING

Cultural probes	47
Competitor product analysis	49
Literature reviews	50
Internet searches	51
Cultural comparisons	52
Role playing	53
Try it yourself	55
Mind mapping	56
Sampling	58
— Case Study Bill Gaver's Cultural Probes	60
— Case Study Adidas ClimaCool Trainer	62
— Tutorial How to write a literature review	64
— Tutorial How to create a great mind map	66

4 ASKING

Questionnaire and Surveys	69
Focus and unfocus groups	70
User narration	71
Interviews	72
Be your customer/client	73
Brand DNA analysis	74
Market and retail research	76
Image and mood boards	78
Perceptual mapping	80
Personas	81
Product collage	82
Extreme users	83
— Case Study Héctor Serrano and Victor Vina's netObjects	84
— Case Study Seymourpowell, Axe/Lynx brand DNA	86
— Case Study MJV Tecnologia e Inovação SMA Coach	88
— Tutorial How to write a great questionnaire	90
— Tutorial How to conduct great interviews	92

5 MAKING

Sketch modelling	95
Mock-ups	96
Paper prototyping	98
Quick-and-dirty prototypes	100
Experience prototyping	101
Appearance models	102
Empathy tools	104
Bodystorming	106
Rapid prototyping	107
— Case Study Dyson vacuum cleaners	110
— Case Study OXO Good Grips kitchen utensils	112
— Case Study Pili Wu plastic ceramics	114
— Tutorial How to conduct experience prototyping	116
— Tutorial How to do quick-and-dirty prototyping	118

6 TESTING

Scenario testing	121
User trials	122
Material testing	126
Safety testing	128
— Case Study MINI E all-electric car	130
— Case Study Berghaus Limpet system	132
— Case Study Building a test rig	134
— Tutorial How to run a great user trial	136

7 EVALUATION & SELECTION

Choosing the right methods	139
Checklists	140
External decision making	141
Intuition	142
Crowdsourcing	144
Product champions	145
Matrix evaluation	146
— Case Study Seren downloadable service design	148
— Case Study Land Rover DC100 Defender	150
— Tutorial How to conduct a matrix evaluation	152
— Tutorial How to write a checklist (PDS)	154

8 COMMUNICATING

Preparing a presentation	157
Ten tips for a great presentation	158
Report creation	160
Presentation visuals and models	162
Presentation guidelines	162
Engaging the public	164
— Case Study AMO/Rem Koolhaas Roadmap 2050 project	166
— Case Study Konstantin Grcic, Serpentine Gallery	168
— Tutorial How to create a great research presentation	170
— Tutorial How to create a great research report	172
Summary	176
Glossary	178
Resources	181
Index	184
Picture credits	191
Acknowledgments	192
